

Who is General Dynamics Mission Systems–Canada?

General Dynamics Mission Systems–Canada is a global defence and aerospace company with a worldwide reputation for excellence in land, air, sea, space, and cyber domains.

For over 75 years, we have been a trusted partner to the Canadian Armed Forces and allied forces globally. Our achievements are a testament to the brilliant minds within our organization, who develop life-saving innovations.

Bold thinking is welcome here. So is imagination, creativity, and leadership. Your ideas will power technologies and solutions to equip our customers with leading-edge hardware, software, and systems.

Our Engineers are core to our business success at General Dynamics. This success is more evident when they embrace our customer's problems as their own to solve, while being innovative in the delivery of solutions.

- Matt Hill, Senior Director of Engineering

We believe that our people are the heart of our company – that's why we invest in training and professional development opportunities, while promoting a culture where colleagues can bring their ideas to fruition.

Our company's commitment extends beyond our products and services; it is deeply rooted in giving back to the communities in which we live and work. Through strategic partnerships, we have fostered a sense of belonging alongside organizations like First Robotics Canada, our patron sponsorship with Women in Defence & Security (WiDS) Canada, the Canada Army Run, and Team Rubicon Canada.

We're collaborating with higher education institutions and small and medium-sized businesses to empower the next generation of talent to create impactful solutions. With CILA, we aim to further nurture an innovative, empowered, and inclusive community for aspiring leaders – just like yourself – now and into the future.
