

One CAE. Infinite Possibilities.

CAE

Unleashing the power of technology
to make the world safer.

Superior Technology for Superior Outcomes

CAE's Defence & Security division is a globally recognized training and mission systems integrator. As a high-tech company, we are at the leading edge of digital innovation, providing training and mission support solutions across multi-domain operations – air, land, maritime, space, and cyber. We are committed to being our customers' partner of choice to help elevate safety, efficiency, and readiness so that our customers can achieve their best performance.

Multi-Domain Operations

Preparing for a great power competition means more digital immersion in a synthetic environment where air, land, maritime, space, and cyber are integrated holistically for multi-domain operations. CAE's history has been filled with technology leadership and industry firsts. Our digital transformation is helping the company continue to drive our enduring and innovative culture by smartly applying technology to help address the needs of defence and security customers globally.

Global Reach

We serve our global defence and security customers through regional operations in the United States, Canada, United Kingdom and Europe, Indo-Pacific, and the Middle East. Our regional operations with global reach help grow local knowledge and industrial capabilities in the locations where we operate while contributing to national safety and security.
